

AMENDMENTS TO THE SPECIFICATION

IN THE ABSTRACT OF THE DISCLOSURE:

Replace the Abstract of the Disclosure currently of record with the attached new Abstract of the Disclosure.

IN THE SPECIFICATION:

Please replace the paragraph beginning at page 1, last line with the following new paragraph:

Generally, an image recorded on a paper etc. for example, through subtractive color mixing has a narrower color reproduction range than a displayed image that is outputted through additive color mixing. With this fact, in the technical field adopting the subtractive color mixing for outputting an image as a result of image processing, there have been inquiries for various color materials or researches of usage of fluorescent materials so as to enlarge color reproduction range and to improve hue.
